Subject: [External] Dominion Energy Rate Increase

Public Service Commission,

My name is Marcus Bingenheimer (Phone: 843-) who is a concerned resident of Mount Pleasant SC regarding the 7.75% rate increase that Dominion Energy is trying to enforce. This is wrong in so many ways. I do not believe that we as consumers should have to pay this increase that is Dominion is stating they need to recoup investments. As someone who works in the construction industry, I see the amount of excess manpower and top of the line equipment that the bring to new construction. If the company was in financial stress, they would not be driving 2021 trucks with level kits and aggressive tires.

If this has anything to do with the failed nuclear plant in Columbia SC, that is outrageous. It is not the consumers problems that they had horrible management causing that plant to never be completed.

Please pass on my concerns.

Thanks,

Marcus Bingenheimer, Assistant Project Manager
